# Coordinated Entry & Street Outreach

*We seek to provide people experiencing homelessness with the fastest possible access to housing, prioritizing the limited resources to those people with the greatest need. Services are provided both at the One Stop and through daily street outreach efforts throughout the community.*

## Assertive Community Treatment (ACT):

*Assertive Community Treatment (ACT) serves people who have a severe and persistent mental illness that seriously impairs their functioning in the community. The individual must have one of the following diagnoses: Schizophrenia, Schizoaffective Disorder, Other Psychotic Disorder, Bipolar Disorder, or Major Depressive Disorder. Participants must have Medicaid.*

## Housing Programs

*Start coordinates several housing programs which include both HUD housing and Permanent Supportive Housing. Start provides subsidy administration and supportive services to people experiencing homelessness through our various permanent housing programs.*

## Veteran Services

*Services are available for Veterans and their families. These include individual case management, peer support, housing resources, connection to community resources, mental health screenings, suicide prevention and referrals to other services needed to maintain permanent housing.*

## Recovery Hub

*If you or someone you know is struggling with Substance Use, we are here to help. No cost, no commitment, just a conversation to start connecting you to what you need.*
